

# EUROPEAN PHILOSOPHY OF SCIENCE ASSOCIATION (EPSA)

(ZVR-Nr.376455747)

General Assembly, Amsterdam 2009

## TREASURER'S REPORT

Period 2007 – 2009

The flow of finances of EPSA since its inception show according to the transfers at the EPSA-account the following figures:

In the first year **2007** membership fees contributed to an income of **6.300 €** in the context of the opening conference EPSA 2007 in Madrid.

Given the expenses for establishing the Website and for bank charges (**671,71 €**) the total balance at the end of the year (Dec. 21, 2007) was exactly **5.628, 29 €**

In **2008** the income from membership fees went down to **1.540,-** , not surprisingly because of the intermediate year without the incentive biannual conference. The moderate expenses of **803,01** (Internet service, bank charges, travel expenses, and registration for the URL [www.epsa.ac.at](http://www.epsa.ac.at) led to the balance of **6.365,28 €** in December 30, 2008 – after the addition of the aforementioned 2007 result.

In this year **2009** running to September 30, with the conference option again, we counted a pleasing increase of membership fees up to **5.320,00 €** - which certainly will be enlarged till the beginning of the EPSA 2009 conference in Amsterdam. Taking into account the expenses during the same period amount to **4.438,44 €** (mostly with 4.000,- for EPSA 2009, bank charges, Internet, URL fees), we arrived at the current account balance of **7.246,84 €** - again together with the transfer from 2008 result.

### Supplementary information:

This balance seems to be a solid basis for the next years – in the hope that the forthcoming *EJPS* journal will attract additional members significantly in 2010 – even if in a year without EPSA conference.

In 2007 we counted 166 paying members (130 regular, 35 students, 1 sponsoring), in 2008 there were 44 members (34 regular, 9 students), and in 2009 we can list 145 members (paying to the account by 111 regular, 24 students, 1 sponsoring).
